## Global Certification Program

Be the best! Take the test!

5 Ways to Make Yourself Discoverable

1. Accept your badge! You earned a digital credential from us when you passed the assessment and received an email from admin@youracclaim.com If you cannot find that email, write to us, and we'll point you in the right direction.

2. When you create your account, be sure to check this box. It makes your **profile and achievements discoverable** by employers.

3. **Share your badge** to social media, especially your LinkedIn profile. Looking for instructions? Check the resources here.

4. Consider sending a copy of your badge (via the email share) to any organization to which you've applied for a job. It's easy for that organization to then **verify your certification**.

5. Make sure to customize your profile on youracclaim.com. **Show your face** and say something about your aspirations. Look for **Settings** on your dashboard.

About Veritas

Veritas Technologies is a global leader in data protection and availability. Over 80,000 customers— including 87 percent of the Fortune Global 500—rely on us to abstract IT complexity and simplify data management. The Veritas Enterprise Data Services Platform automates the protection and orchestrates the recovery of data everywhere it lives, ensures 24/7 availability of business-critical applications, and provides enterprises with the insights they need to comply with evolving data regulations. With a reputation for reliability at scale and a deployment model to fit any need, Veritas Enterprise Data Services Platform supports more than 800 different data sources, over 100 different operating systems, more than 1,400 storage targets, and more than 60 different cloud platforms. Learn more at www.veritas.com. Follow us on Twitter at @veritastechllc.
