

# Healthcare is at High Risk from Cyber Attacks

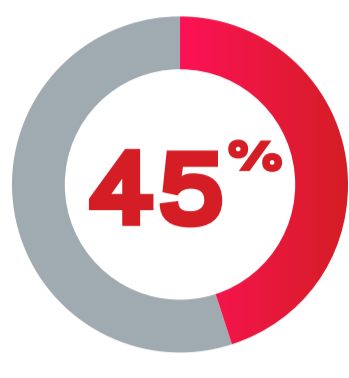

Level up your cyber defense or you could pay a price.

## Let's start with a reality check.

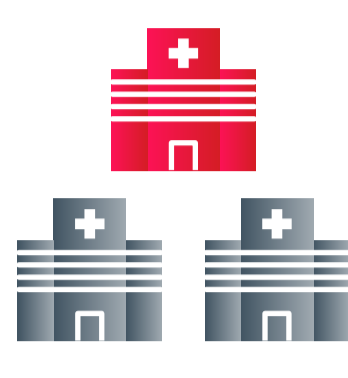

Ransomware is the fastest growing cybersecurity threat for healthcare today.

A majority of healthcare organizations experienced downtime due to ransomware in 2021.<sup>1</sup>

Increase in attacks targeting healthcare organizations since Nov. 2020.<sup>2</sup>

1 in 3 healthcare organizations reported being hit by ransomware in 2020.<sup>3</sup>

## Catastrophic costs continue to rise.

The prognosis isn't pretty for organizations that are unprepared.

**\$7.8B**

Estimated cost for all healthcare cyber attacks in 2021.<sup>4</sup>

**\$250K - \$5M**

Range of ransoms demanded from healthcare organizations in 2021.<sup>4</sup>

**\$265B**

Estimated cost of global ransomware over the next 10 years.<sup>5</sup>

**\$9.4M**

Average US financial impact from a data breach.<sup>6</sup>

## Recovery can be painful.

Downtime doesn't just cost money—it causes damage to your reputation.

HIPAA requires orgs to notify patients 60 days after breach.<sup>7</sup>

Healthcare orgs take days to restore operations.<sup>8</sup>

Healthcare orgs take weeks to restore operations.<sup>8</sup>

## Don't worry, there's good news, too.

Veritas has the perfect prescription to stop the pain of cyber attacks.

### Cybersecurity

- Prepare for 'everywhere' patient data
- Keep up with threat actors
- Recover rapidly, with ease

### Cloud Control

- Easily manage multi-cloud
- Protect patient data across clouds
- Optimize to lower costs

### Data Compliance

- Always be audit-ready
- Only retain what's important
- Find HL7 & HIPAA content on demand

### Autonomous Operations

- Leverage AI and machine learning
- Cut costs by automating
- Self-provisioning, self-optimizing

## Are you ready to strengthen your cyber resilience?
