

Veritas Alta™ Capture Suite

Minimize compliance risk and optimize outcomes by capturing information into the cloud.

The [Veritas Alta Capture Suite](#) (formerly known as Merge1 SaaS) supports the largest capture coverage in the industry, enabling you to ingest data from more than 120 applications and channels including financial messaging platforms, collaboration tools, file sharing, social media, SMS, mobile chat, audio/visual files, web pages, and cloud-based content.

Fully Customizable: Support any content, including proprietary content sources

Designed for Simplicity: Quick to set up on your existing infrastructure, it has a small footprint and requires no training.

Add Veritas Alta Capture to:

Archive

Retain all conversations within your workforce, over any medium

Comply

Align with message archiving regulations

Enhance

Improve eDiscovery and legal preparedness

Archive Conversations Across Platforms

As business communications increasingly occur over digital channels such as social media and financial messaging, capturing these communications has become essential to:

- Comply with industry regulations, including financial services and pharmaceuticals
- Support eDiscovery efforts for legal cases and investigations
- Retain communications for corporate governance and other mandates

Avoid Monthly Fees and Migration Burdens

Veritas Alta Capture greatly simplifies the capture and archival of messages for compliance and eDiscovery. And it's the only archive messaging application endorsed by both Microsoft and Veritas. Through its integration with Veritas™ Cloud Archiving, Veritas Alta Capture helps you avoid:

- Burdensome migration of existing data to a third-party data store
- The challenges of running two archives in parallel
- Expensive, recurring monthly fees

Support Compliance with Major Regulatory Groups

Use Veritas Alta Capture to meet the requirements of regulations and organizations including:

- Financial: APRA, ASIC, DORA, CFTC, FINRA, MiFID II, SEC, SOX
- Pharma and Healthcare: ARRA, FDA, FDCA, HIPAA, SARS
- Government: FISMA, FOIA, RTI, State Privacy Acts
- Energy and Utilities: DOE, FERC, NERC, State Regulations
- International/Commercial: FTC, GDPR

Unsure if your content type is supported? Just ask! Veritas Alta Capture is fully customizable and can handle any content type. While some connectors are native, we also partner with others—like our SMS/phone connector—and can develop custom connectors as needed.

About Veritas

Veritas Technologies is the leader in secure multi-cloud data management. Over 80,000 customers—including 91% of the Fortune 100—rely on Veritas to help ensure the protection, recoverability and compliance of their data. Veritas has a reputation for reliability at scale, which delivers the resilience its customers need against the disruptions threatened by cyberattacks, like ransomware. No other vendor is able to match the ability of Veritas to execute, with support for 800+ data sources, 100+ operating systems and 1,400+ storage targets through a single, unified approach. Powered by Cloud Scale Technology, Veritas is delivering today on its strategy for Autonomous Data Management that reduces operational overhead while delivering greater value.
