

UBI SISTEMI E SERVIZI

From Milan to Rome and almost the whole national territory, the UBI Banca Group casts a wide net of banking, insurance, asset management, and other financial services. To ensure snag-free data protection for every UBI company, the IT team at UBI Sistemi e Servizi leveraged its Veritas NetBackup™ software assets to create an agile, enterprise-scale solution.

ABOUT UBI SISTEMI E SERVIZI

- IT team provides comprehensive business continuity and disaster recovery solutions to companies in the UBI Banca Group.
- Operates data centers at its headquarters in Bergamo and Brescia, Italy.
- Serves more than 1,800 branch.

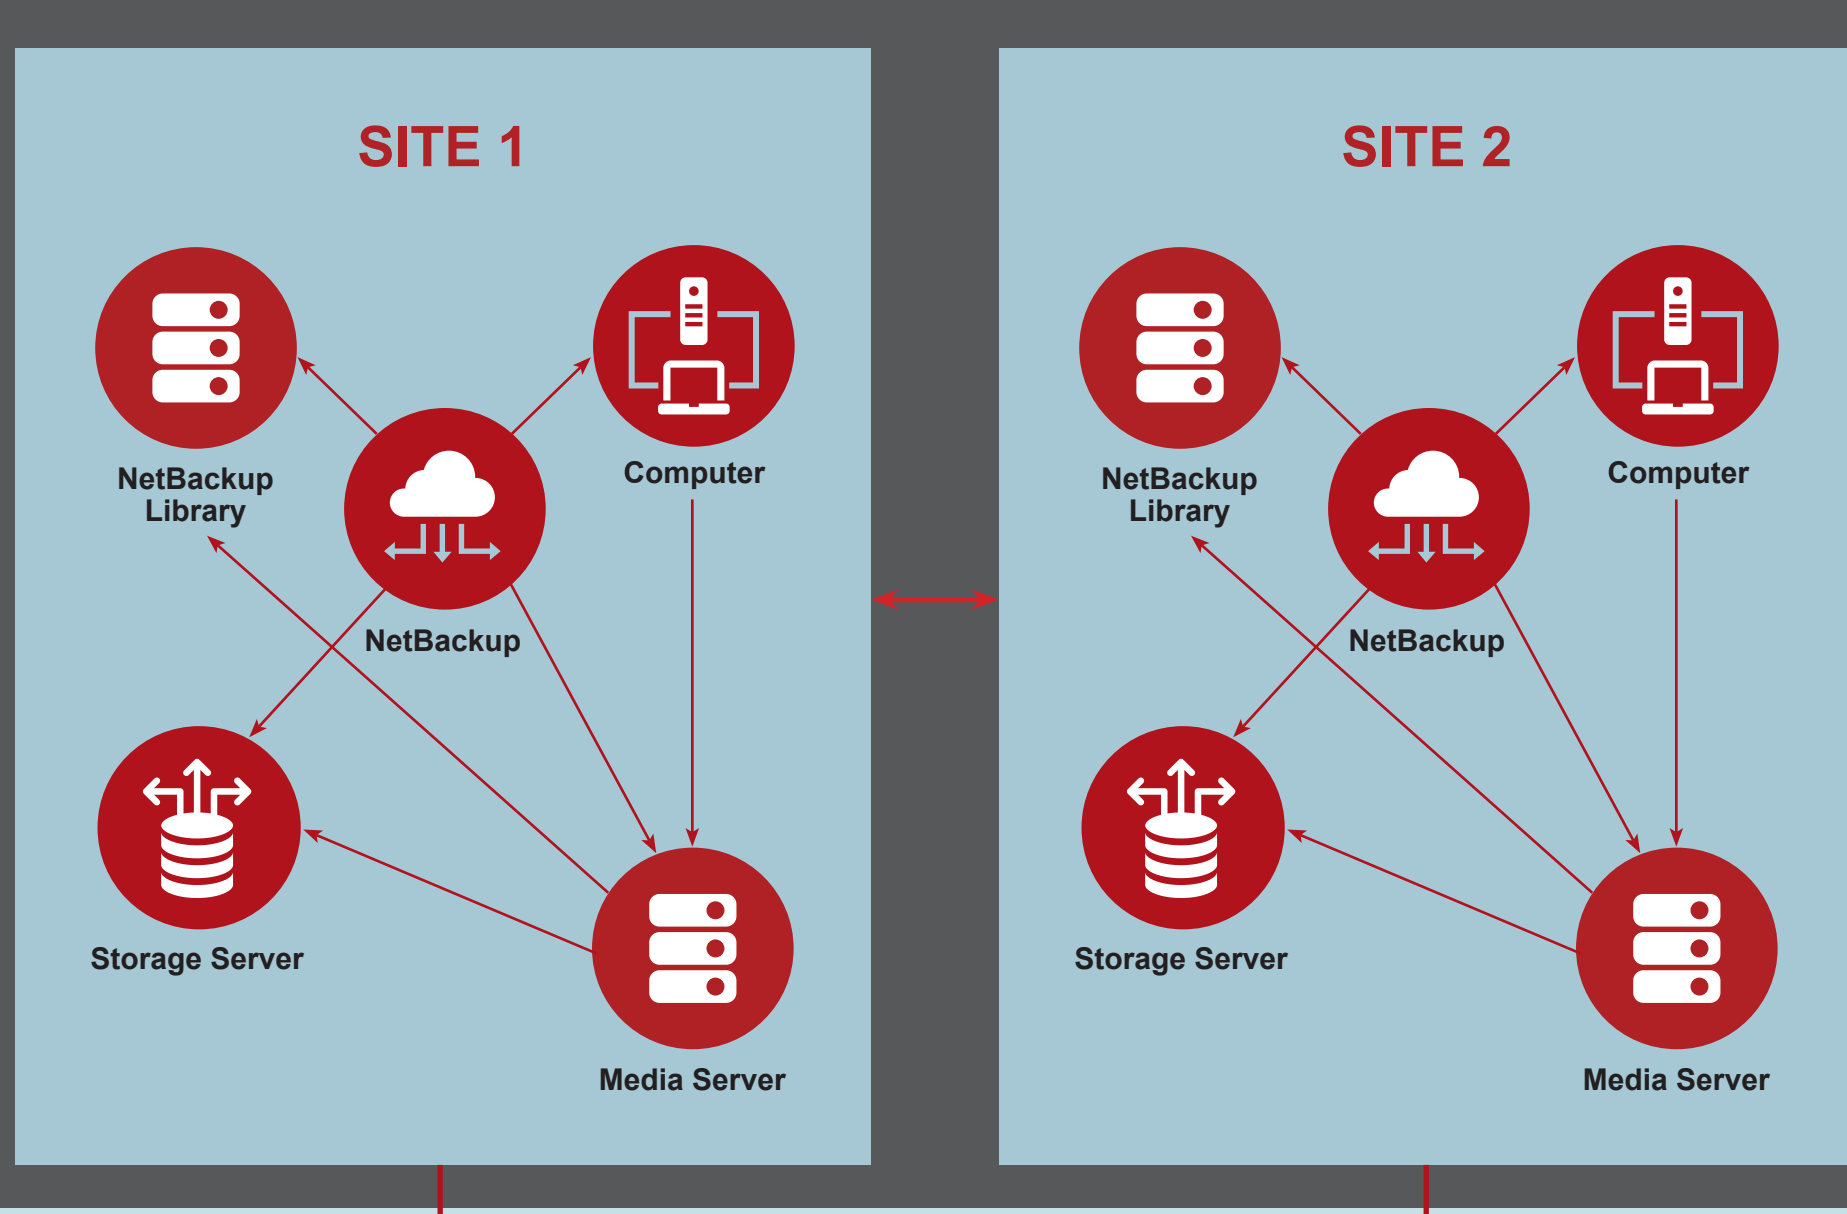

CHALLENGE: IMPROVE APPLICATION AVAILABILITY DURING BUSINESS HOURS WHILE PROTECTING DATA ACROSS DIVERSE PLATFORMS

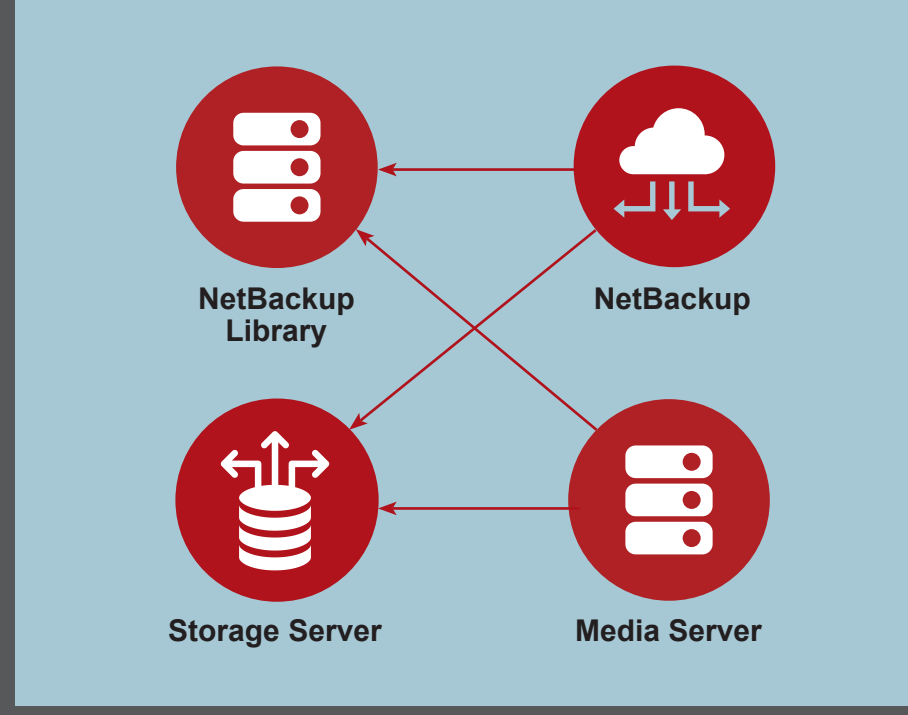

- More than 3,000 virtual machines
- Hundreds of physical servers from various vendors
- Various versions of UNIX and Windows

PATH TO SUCCESS: UPGRADE TO ENTERPRISE-QUALITY DATA PROTECTION WITH VERITAS NETBACKUP 8, NETBACKUP APPLIANCES AND ENTERPRISE VAULT™

PRIMARY & BUSINESS CONTINUITY SITES

DISASTER RECOVERY SITE

- Augment existing **NetBackup 8** software with **NetBackup Appliances** to deliver an optimal backup solution for each client.
- Expand use of deduplication functions, including deduplication at the source to shrink backup windows.
- Use NetBackup Accelerator and AIR replication to minimize backup traffic between the data centers.
- Use **Enterprise Vault** to store historic data, personal data, and email correspondence.

“By implementing this project, we achieved our goal of significantly reducing the time needed to backup data. The Veritas solutions gave us the confidence to meet data management demands during businesses hours.”

Davide Solazzi, IT Service Execution Manager, UBI Sistemi e Servizi

OUTCOME: READY FOR BUSINESS EVERY MORNING, EFFICIENT THROUGHOUT THE DAY

- All backups completed overnight.
- All protected systems available to meet business demands during operating hours.
- Wide area network bandwidth is used more efficiently.
- Unified infrastructure and skill set ease operations, lower TCO.

NEXT STEP: NUDGE EFFICIENCY EVEN HIGHER

“We’re looking to Veritas Information Map to identify our business data precisely and back it up with appropriate frequency and retention policies.”

Davide Solazzi, IT Service Execution Manager, UBI Sistemi e Servizi
