Fully Customizable: Can be customized to support any content, including proprietary content sources.

On-Premise or Cloud: Run Merge1 on-premises or in our dedicated cloud environment.

Designed for Simplicity: No training required. Small footprint. Runs on existing infrastructure. Quick setup.

Add Merge1 to your Existing Email to:

Archive: Retain all conversations taking place by your workforce, over any medium.

Comply: With message archiving regulations.

Enhance: eDiscovery and legal preparedness.

Archive the Business Conversations Taking Place Across All Your Platforms

As more and more business communications take place over new digital mediums such as social media, and financial IM, capturing these communications has become essential for:

- Compliance with industry regulations, including financial services and pharmaceuticals.
- Support of eDiscovery efforts for legal cases and investigations.
- Retention of communications for corporate governance and other mandates.

Total Integration with Veritas Enterprise Vault.cloud

Merge1—the only archive messaging app endorsed by both Microsoft and Veritas—greatly simplifies the process of capturing and archiving messages for compliance and eDiscovery. Its integration with Enterprise Vault.cloud gives users the ability to collect from 120+ content sources using the archive portal. Merge1 helps you achieve:

- Seamless experience within the Enterprise Vault.cloud platform.
- Hassle-free capture without needing to worry about complex software and hardware management.
- All-in-one cloud capture and archive solution.

The Ideal Combination of Power and Simplicity:

- Universal compatibility
- Fully customizable
- On-premise or cloud
- Easy to set up and deploy
