

# Veritas Alta SaaS Protection Microsoft 365 Data Backup

Microsoft 365 backup that scales to deliver reliable protection.

The biggest threats to data stored in Microsoft 365 are ransomware and accidental (or malicious) deletion by users. It's important that you can recover from all data loss scenarios with Veritas Alta™ SaaS Protection (formerly known as NetBackup SaaS Protection).

## Veritas Has Your Microsoft 365 Covered

Protect the full range of data stored across Microsoft 365—mailboxes, Teams, OneDrive for Business, and SharePoint Online. Veritas Alta SaaS Protection delivers Microsoft 365 backup as a service (BaaS) with Azure Active Directory (AD) integration running in the cloud region(s) of your choice, giving you security and data residency controls without the requirement to manage it yourself.

*After Veritas Alta SaaS Protection writes the backups, they cannot be changed. We consider the backup and protection of our data to be one of our most important lines of defense [against] a ransomware attack—we are confident that our data is safe with Veritas."*

## Protect and Recover From Data Loss With Ease

Scale across regions, back up sites continuously, and deliver performance that ensures your backup never falls behind.

## Reliable Backup

Seamless integration with the Microsoft 365 APIs easily maintains a synthetic full backup of your data. Perform bulk backup of entire Microsoft 365 application stores.

## Instant, Flexible Recovery

Restore data at granular and bulk levels to original or alternate locations. Use recovery to restore calendars, mailboxes, OneDrive sites, Teams, and SharePoint sites.

## Full Control

You set your backup policies and permissions as well as the hosting cloud region, giving you full data residency control. Veritas supports Microsoft 365 Geo-Location controls, making compliance with data sovereignty regulations simple. Rapidly export search results in the event of a legal discovery request or compliance audit.

## Enterprise Security

Get secure storage for your backup data residing in a dedicated, SOC 2 Type II–compliant instance of the Veritas data management platform using end-to-end encryption.

## Enterprise-Grade Scalability

Microsoft 365 environments can grow to be very large, so you need a data protection solution that scales to grow with your organization. Veritas Alta SaaS Protection has no limit on backup storage.

## Compare How Veritas Delivers the Leading Microsoft 365 Backup

See why organizations choose Veritas Alta SaaS Protection for their Microsoft 365 backup needs.

### Microsoft 365 Backup Features

Backup Coverage	Recovery Options	Security	Platform
Microsoft 365	Granular restore	Immutable storage	Software-as-a-service (SaaS)
Google Workspace	Bulk restores	IP allow / deny lists	Data residency controls
Slack	Point-in time restore	End-to-end encryption	Flexible deployment options
Box	Choice of restore location	Multi-Factor Authentication	Multi-region support
Amazon S3	Package data for export	Single sign-on (SSO)	Multi-domain support
Azure Blob and File Storage	Low recovery time objectives (RTOs)	Access control lists (ACLs)	Petabyte scalability
Low recovery point objectives (RPOs)	Provides ransomware resiliency	Enhanced role-based access control (RBAC)	Unlimited data retention

### About Veritas

Veritas Technologies is a leader in multi-cloud data management. Over 80,000 customers—including 95 percent of the Fortune 100—rely on Veritas to help ensure the protection, recoverability, and compliance of their data. Veritas has a reputation for reliability at scale, which delivers the resilience its customers need against the disruptions threatened by cyberattacks, like ransomware. No other vendor is able to match the ability of Veritas to execute, with support for 800+ data sources, 100+ operating systems, 1,400+ storage targets, and 60+ clouds through a single, unified approach. Powered by Cloud Scale Technology, Veritas is delivering today on its strategy for Autonomous Data Management that reduces operational overhead while delivering greater value.
