

# MITIGATE PRIVACY AND LEGAL RISKS

Manage end-to-end eDiscovery to improve legal defense and compliance.

Healthcare organizations are constantly dealing with risk from legal defense, compliance, and cyberthreats. Relying on legacy technologies can cost you millions in regulatory penalties and patient trust.

## STATE OF COMPLIANCE IN HEALTHCARE

61% of internal compliance teams report that increasing regulatory changes have adversely affected their ability to perform effectively.<sup>1</sup>

## CONSEQUENCES OF NON-COMPLIANCE

**\$1.3M**

Highest fine issued by HIPAA in 2023 for failure to conduct a comprehensive risk analysis — which led to a data breach affecting 1,438 patients.<sup>2</sup>

**\$1.7M**

Average savings for healthcare organizations that use AI and automation extensively to reduce the cost of regulatory fines.<sup>3</sup>

**113M**

Medical records exposed, stolen, or otherwise impermissibly disclosed in 2023, including four data breaches of more than 8 million records.<sup>4</sup>

## DATA PROTECTION PRIORITIES

DATA MANAGEMENT	COMPLIANCE AND PRIVACY	DEFEND AGAINST CYBERTHREATS	REDUCE COMPLEXITY
Access, utilize, and manage data from multiple sources.	Meet regulatory compliance requirements and mitigate risk.	Take proactive measures to protect sensitive data.	Simplify, collect, review, and produce data stored electronically.

## DEFENSIBLE eDISCOVERY AND COMPLIANCE

The scale and complexity of eDiscovery requirements can only be addressed through a unified approach. Make sure you have a solution that can:

### Capture From Native Sources

Collect data from content sources including collaboration, chat, social media, voice, and video.

### Analyze Files In-Depth

Classify and contextualize data to gain insights and satisfy regulatory requirements.

### Leverage AI and ML to Surface Critical Data

Surface critical data and zero in on risky behaviors using automated processes.

### Accelerate eDiscovery

Locate relevant data for discovery, supervision, privacy, and legal challenges.
