CxLoyalty	"It's easy, using Veritas NetBackup with Amazon Web Services (AWS), and works very perfectly." — Gurvinder Chanana, Storage Administrator, CxLoyalty	
NetMarks Philippines	"With Amazon Web Services (AWS) cloud-deployed Veritas products, Netmarks Philippines is realizing faster cloud backups." — Vitas Bjorn Briones, System Administrator, Netmarks Philippines	
Bank Indonesia	"With Amazon Web Services (AWS) cloud-deployed Veritas products, Bank Indonesia is now realizing the ability to recover data when and where needed, perform disaster recovery to the cloud if needed, and NetBackup single point of management is a huge benefit for using Veritas CloudPoint in a hybrid cloud environment." — Santi Mutia, System Administrator, Bank Indonesia	
Tech Data Canada	"Why do we use and recommend using Veritas with Amazon Web Services (AWS)? One of the most common scenarios is to to offload data to cloud storage. Customers are looking at cloud storage as an offsite repository and Veritas provides all the connectivity we are looking for. Also, the ability to restore data in the AWS cloud takes just a few clicks; which we were looking for. Hence VERITAS with AWS was a natural choice !!!" — Girish Sharma, Systems Engineer (Cloud), Tech Data Canada	
Global Sapphire Filipinas Inc.	"Global Sapphire Filipinas has realized reduced cost, faster cloud backups, an ability to recover data when and where needed and perform disaster recovery to the cloud if needed. The Veritas NetBackup single point of management is a huge benefit when using CloudPoint in a hybrid cloud environment." — Athena Garcia, IT Specialist, Global Sapphire Filipinas Inc.	
Atos IT Services	"With Amazon Web Services (AWS) cloud-deployed Veritas NetBackup, Atos IT Services is realizing reduced cost and the ability to recover data when and where needed." — Jorge Flores, IT Architect, Atos IT Services
